

### 3-6V Dual Axis Gear Motor with 65mm Rubber Wheel

#### Model: AC032 / 160004

**Description:** This product is 1 DC gear motor + 1 wheel = 1 set. The wheels and the motor are molded by injection molding, Wheels diameter 65mm width 27mm. Motor gearbox two-axis motor with a reduction ratio of 1:48

**Specification:**

Working voltage	3-6V
Reduction gear ratio	1:48
RPM	230
Diameter of wheel	65mm
Wide of wheel	27mm

**Features:**

This is DC gear motor and the torque is large, the current is low and it is suitable for battery applications. Widely used in smart car, boat mode.
