

Datasheet product GS127

Accessories for heat sinks and other electronic components > Thermally conductive material > Mica washers
TOP 3, 25.5 x 21.0 mm, customer-specific versions on request

Characteristics

for transistor :	TOP 3
Material :	Muscovite
Material thickness :	0.05 mm
Thermal resistance (GS127) :	0.4 K / W
Dielectric strength :	5 kV
Insulation resistance :	$3 \times 10^{17} \Omega \text{ cm}$

Technical drawing
