DUST OFF 67

HOW TO FIGHT INTERFERING DUST

DUST OFF 67 is the KONTAKT CHEMIE product designed to combat dust.
The pure pressurised gas acts like compressed air.

FEATURES	APPLICATIONS
<ul style="list-style-type: none"> • Always at hand as part of any service kit. • Can be used easily without the need of compressors, electricity or compressed air supplies. • Combines powerful pressure and high density to achieve an intensive blowing action. • The gas used is dry and oil-free. • Removes dust particles even from the most inaccessible corners. • Quick and safe, simply press the nozzle-head and it is done. • An extension tube for hard-to-reach areas enables easy cleaning. 	<ul style="list-style-type: none"> • Can be used where it is difficult to remove dust using conventional methods: <ul style="list-style-type: none"> - Cameras - Optics - Fine mechanics - Laboratory equipment - Watch mechanisms - Electronics - Medical technology - Microscopy

Color :	Colorless
Density at 20°C (liquid) :	1.01 g/cm³
Vapor pressure (@ 20°C) :	420 kPa
