

NEW PRODUCT !

BNSD TYPE 3.0

Keeping you safe... saving your home and your appliances !

Our **BROKEN NEUTRAL SAFETY DEVICE (BNSD)**, is designed to trip the earth leakage, in the absence of the NEUTRAL.

Neutral cables are often stolen, or incorrectly connected, or come loose over time...

This may result in shock, electrocution, fire or damage to your appliances and equipment.

Our BNSD - easy to install, affordable solution !

Easily installs in any single or three phase DB Board !

Every home or installation should have one !

Get yours today and save lives and assets !
